

## Protective cover for FGH 6 / AS...H 60 attachments Supplement to the proven encoder system solution

### Product description

- Cover suitable for incremental encoder FGH 6 and absolute encoder AS...H 60
- For protection against accidents caused by rotating parts
- Easy retrofitting of existing attachments
- Cover is screwed directly onto mounted FGH 6 / AS...H 60
- Three sizes available: 215 / 225 / 290 mm inner diameter, suitable for different adapter shaft sizes

*Protective cover mounted on FGH 6*

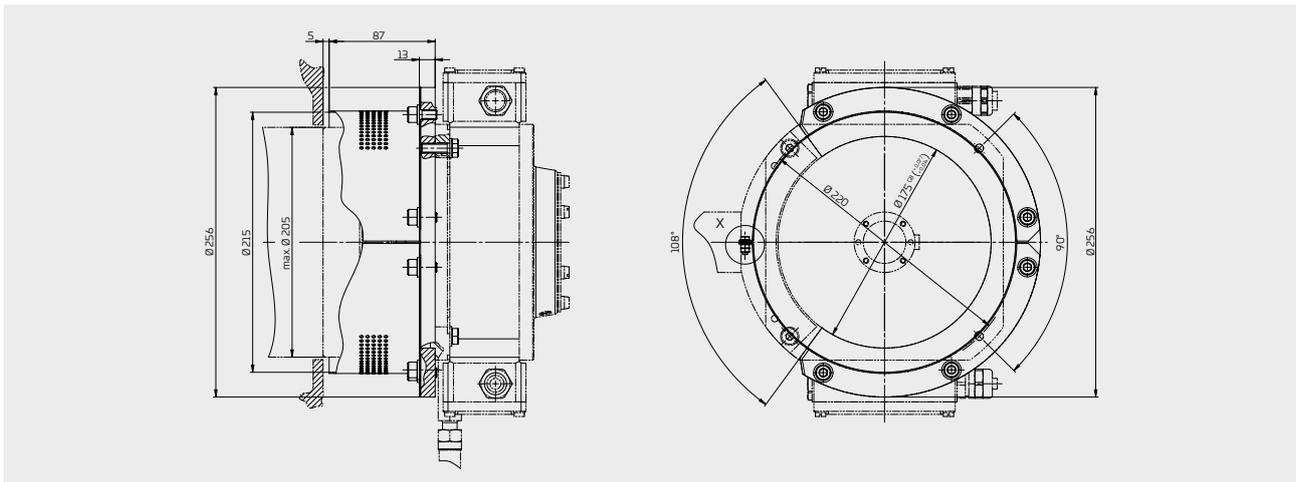

*Simple screw mounting*

*Retrofitting possible without disassembling the encoder*

### Sample dimension drawing for cover 23897 (Inner diameter: 215 mm)

**System solution** Cover on FGH 6 / adapter shaft

### Overview covers / adapter shafts for FGH 6

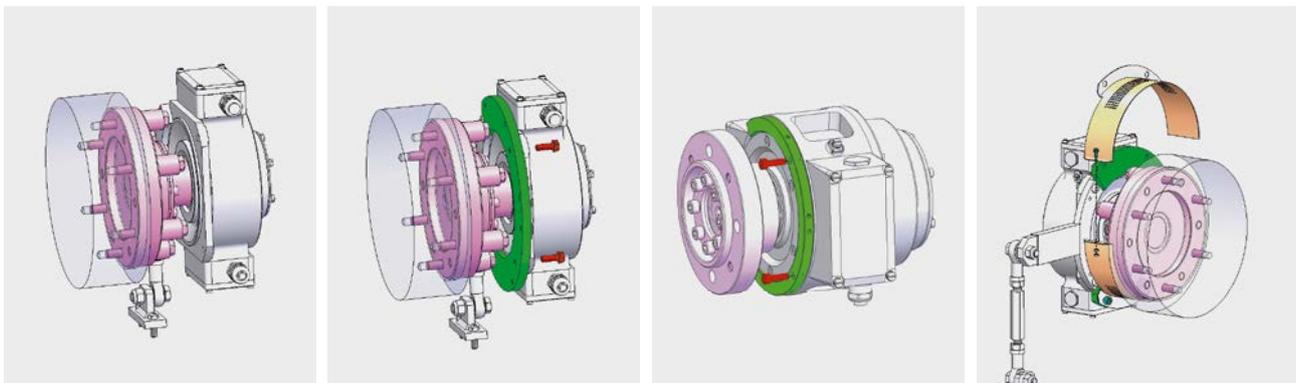

ID cover	Length	ID adapter shaft	Ø adapter shaft	Dimension drawing
23897	87 mm	13705	max. 205 mm	HM 21 M117212
25453	77 mm	13709, 13710	max. 216 mm	HM 21 M117213
25503	69 mm	13711, 13713	max. 280 mm	HM 22 M117411

### Overview covers / adapter shafts for AS...H 60

ID cover	Length	ID adapter shaft	Ø adapter shaft	Dimension drawing
25835	65 mm	20373	max. 165 mm	HM 23 M118629

Further individual solutions / variants possible on request

### Retrofitting the cover on FGH 6 / AS...H 60

- 1** Existing mounting with FGH 6 oder AS...H 60
- 2a** Mounting the retaining plate on the FGH 6 flange
- 2b** Screwing on the face of the retaining plate on the AS...H 60
- 3** The two halves of the cover are each attached to the retaining plate and screwed together

- Adapter flange with adapter shaft
- Retaining plate of the cover
- Cover
